e-payment
gate

What do we offer?

We at UZET are aware of the transaction and payment process, its complications are unnecessary challenges that you do not need to take on, so we took care of that for you in the most convenient way. UZET mainly provides a simple, easy-to-use platform, that is highly efficient and fast while maintaining high-security measures to ensure safety. UZET's fee is relatively lower than the fees of other e-payment platforms (0.80% on each transaction) with varied plans and subscriptions that fits your needs, no worries if you haven't found a plan that suits your enterprise, we would be delighted to work with you on creating a custom plan that does! UZET also uses a built-in interface whether it's for a website or an application this works on tightening the security as well as decrease the distraction caused usually by exterior payment links. It's really simple, all you have to do is:

01

Make sure you're registered on our platform and confirm your identity

02

Pick the method of integration that suits you

03

Open the dashboard through website or the application and you can track payments and withdrawals

Apple Pay

Google Pay

Visa Card

MasterCard

PayPal

Bitcoin

JCB

Alipay

China Unionpay

UZET supports:

platform
made by
entrepreneurs
for
entrepreneurs

We achieved the current results through the values that we believe in, such as innovation as we always work on reinventing ourselves and find creative ways to facilitate the payment process, we also believe in transparency as we are clear and honest regarding the fee, there are no hidden fees, we can proudly say that UZET is a platform made by entrepreneurs for entrepreneurs!
